Annotation Conventions

This annotated CRF maps each collected field to its destination SDTM domain and variable, following standard industry aCRF conventions used in regulatory submissions.

Convention	Meaning
Blue, monospace text	SDTM Domain. Variable annotation (e.g., VS. VSORRES)
[NOT SUBMITTED]	Field is collected on the CRF but not mapped to any SDTM dataset (e.g., site administrative fields)
Code list reference	Controlled terminology code list name shown in parentheses, e.g., (NY), (SEX), (RACE)
Red asterisk (*)	Indicates a required / mandatory CRF field for data entry

SDTM domains referenced in this document: DM (Demographics), IE (Inclusion/Exclusion Criteria Not Met), MH (Medical History), VS (Vital Signs), EX (Exposure), CM (Concomitant/Prior Medications), AE (Adverse Events), DS (Disposition).
